This guide reflects a collaborative effort of the Winnebago County Drug and Alcohol Coalition and many other partners. The purpose of the guide is to deliver information on substance use treatment, explore resources, and provide information regarding the multiple pathways to recovery from substance use that are present throughout the Fox Valley and surrounding regions.

How to access services for you or your loved one:
- If you or your loved one has health insurance first contact your insurance carrier to see what your benefits are and to learn next steps.
- If you do not have health insurance or your health insurance plan does not have coverage for substance use treatment, contact your county human services department.

This guide is meant to represent the wealth of resources present in the area, with the primary focus being Calumet, Fond du Lac, Outagamie and Winnebago counties. In addition, it is important to keep in mind that each agency or group has its own policies, procedures and processes in place. Contact the specific agency or group if you have questions regarding the services they provide.

CONTENTS
Residential/Inpatient Treatment Services 1-2
Outpatient Treatment 3-5
Adolescent Treatment Services and Support 6
Sober Living Resources 7
Sober Community Support Centers 8

Outpatient Treatment

Outpatient treatment is therapy that helps clients to develop healthy coping skills, a strong support system, learn to implement structure in their life, and help to support them through life challenges while remaining in their home and work environment.

Adolescent Treatment
Services and Support

Substance-use disorders affect people of all ages, and asking for help at any age can be difficult. Early intervention, education, and treatment can help you gain the support and tools you need to repair relationships, develop healthy coping skills and live a healthy, active life.
